Some index to the extent of the commercial disasters of last year is supplied by the Returns of the Supreme Court laid on the table of the Legislative Council yesterday afternoon. In 1889 there were 47 bankruptcies, as against 17 only in 1888, the total amount of debts proved being \$566,951 as against \$59,985. There were 35 new - Companies. Hon. F. Fleming, C.M.G. registered, with a capital of \$12,332,600, and there can be little doubt that this company mongering was the chief cause of the collapse which marked the latter part of the year. The number registered in 1888 is not given in the report for that year, but as the fees received by the Registrar in 1889 amounted to nearly three times as much as in the previous year it may be assumed that the difference in the number of Companies was in about the same proportion. The mania reached its climax in the spring of last year, and the Colony has !!

A shooting match between the Sergeants of the A. and S. Highlanders and H. M. S Swi took pisce on Thursday afternoon on the M lary Ranges at Kowloon. A close contest was last year under these headings was \$36,985 01 expected, as the Sacriff team were known to be very good, having only been beaten once on this station, and the Swift having been the best shooting ship in the navy for the last two years. The conditions of the match were eight men each side, seven shots at 200, 400, and 500 yards, one sigthing shot at each, any position. These ranges were chosen by the Naval team, 400 yards being an unusual distance to fire at in a Alilitary match The weather was not very favourable for good shooting as there was a stiff breeze blowing at the commencement, and although this dropped after a little while, matters only became worse with a heavy downpour of rain, which inter-fered considerably with the shooting at 400 yards. At the conclusion of the firing at the first range the Highlanders were 12 points to the good; this advantage they incre sed to 69 at 400 yards, and led by another Si points at 500 yards; thus winning the match by 100 points. The average of the Sergeants was 87.37

very good one, esp cially so considering the adverse conditions of the westher. Colour-Sergt Mack was the highest scorer on either side wit the total of 94 points, and the lowest soore or the winning side was 81. The following are the total scores :-

HOW PILLS ARE MADE

The Custom of taking medicine in the form of pills dates far back in history. The object is to pills are consumed every year. In early days

No form of medication can be better than pill, provided only it is intelligently prepared, But right here occurs the difficulty. Easy as it may seem to make a pill, or a million of them there are really very few pills that can be bonestly commended for popular use. Most of them either undershoot or evershoot the mark. As everybody takes pills of some kind, it may be well to mention what a good, safe, and reliable pill should be. Now, when one feels dull and sleepy, and has more or less pain in the headsides, and back, he may be sure his bowels are constipated, and his liver sluggish. To remedy this unhappy state of things there is nothing like a good cathartic pill. It will act like a charm by stimulating the liver into doing its duty, and ridding the digestive organs of the accumulated poisonous matter. But the good pill does not gripe and pain us,

neither does it make us sick and miserable for a few hours or a whole day. It acts on the antire glandular system at the same time, else the after-effects of the pill will be werse than the disease itself. The griping caused by most pills is the result of irritating drugs which they contain. Such pills are barmful, and should never. he used. They sometimes even produce hemorrhoids. Without having any particular desire to praise one pill above another, we may, nevertheless, name Mother Seigel's Pills, manufactured by the well-known house of A. J. White. Limited, 35, Farringdon Road, London, and now sold by all chemists and medicine vendors, as the only one we know of that actually possesses every desirable quality. They remove the pressure upon the brain, correct the liver, and cause the bowels to not with ease and regularity. They never gripe or produce the slightest sickness of the stomach, or any other unpleasant feeling or symptom. Neither do they induce further constipstion, as nearly all other pills do. As a further and crowning merit, Mother Seigel's Pills are covered with a tasteless and harmless coating, which causes them to resemble pearls, thus rendering them as pleasant to the palate as they are effective in curing disease. If you

To what vast dimensions pill-taking has grown may be imagined when we say that in England alone about 2,000,000,000 (two thousand million) pills were made slowly by hand, as the demand was comparatively small. To day they are produced with infinitely greater rapidity by machines especially contrived for the purpose and with greater accuracy, too, in the proportions of the various ingredients employed
